ANNUAL REPORT OF SYSTEM RELIABILITY
ISSUES

REQUESTS FOR ADDITIONAL SUPPLIES TO MEET
THE MINIMUM FLOW REQUIREMENTS

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 28,000 DTH

Flow Date(s) Requested: December 28, 2023

Time of Request: 7:40 PM December 27, 2023

Reason for Request: Southern System scheduled quantities are expected to be 28,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 101,000 DTH

Flow Date(s) Requested: January 09, 2024

Time of Request: 08:00 PM January 08, 2024

Reason for Request: Southern System scheduled quantities are expected to be 101,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 63,000 DTH

Flow Date(s) Requested: January 14, 2024

Time of Request: 07:30 PM January 13, 2024

Reason for Request: Southern System scheduled quantities are expected to be 63,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 43,000 DTH

Flow Date(s) Requested: January 15, 2024

Time of Request: 07:30 PM January 14, 2024

Reason for Request: Southern System scheduled quantities are expected to be 43,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 157,000 DTH

Flow Date(s) Requested: January 15, 2024

Time of Request: 11:30 AM January 15, 2024

Reason for Request: Southern System scheduled quantities are expected to be 157,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 77,000 DTH

Flow Date(s) Requested: January 16, 2024

Time of Request: 07:30 PM January 15, 2024

Reason for Request: Southern System scheduled quantities are expected to be 77,000 DTH below the southern system minimum flowing supply requirement.

Southern System Reliability Request

Purpose: SoCalGas' Gas Control Department is requesting that Transmission & Storage Strategy acquire gas supplies to ensure system reliability.

Location: Southern System

Quantity Requested: 36,000 DTH

Flow Date(s) Requested: February 12, 2024

Time of Request: 08:20 PM February 11,2024

Reason for Request: Southern System scheduled quantities are expected to be 36,000 DTH below the southern system minimum flowing supply requirement.
